

*Metal
& Gas*

The logo consists of the words "Metal" and "Gas" in a dark grey, elegant cursive script. An ampersand (&) is positioned between them, and its right-hand stroke is cleverly designed to resemble a gas nozzle, complete with a handle and a hose that loops around the word "Gas".

1971 FORD F-100

METAL & GAS

QUALITY

Hand-made builds & hand-picked inventory.

With over a decade in the industry, we only use the highest quality parts and materials installed by the most experienced technicians in the industry.

*Metal
& Gas*

The logo consists of the words "Metal" and "& Gas" in a dark grey, elegant script font. The ampersand is stylized to incorporate a gas nozzle, with the nozzle's handle and trigger forming the right side of the symbol. The nozzle's hose extends from the top of the ampersand, looping back to connect with the end of the word "Metal".
